ORGANIZED BANDS OF FARMERS AND BUSINESSMEN RAID WORKERS CAMPS

At Fairmount, S. Dak., Brookings, Minn., and Carrington, N. Dak., Cops and Mobs Attack Harvest Hands Seeking Work. But Organization Members Are a Member.

NEW ROCKFORD, N. D., Aug. 7.—The drive of A. V. C. H. has proceeded North Dakota and new members are rapidly filling up.

At Brookings, Minn., last night, as we passed through. A. V. C. H. members were seeking work to throw away the harvest near that city. A mob of farmers was on the way to meet them, but were stopped by the police.

The police cleared a path for the members, and the mob was held at bay. The police showed a good record in this case. They are doing a fine job in keeping the peace.

The police also showed a good record in the case of the farmers who were seeking work.

SALT LAKE CITY, Aug. 7.—The Utah farmers’ union is still in existence and is continuing its work. They are doing a fine job in keeping the peace.

DETROIT, Aug. 8.—The Detroit daily papers are proclaiming prosperity again.

Here are a few of the facts: After giving his 11 per cent wage increase, Ford ordered the 80 per cent to return to work. For them the prosperity we hear about is reading about it in the newspaper! The nearest they can get to it is walking the streets of Detroit looking for a job to do.

The Oakland Motor Car Co., the Timken Bearing Co., the Graham Paige Motor Corporation and the Packard Motor Co. have been ordering everyone to report to work. For them the prosperity we hear about is a myth; the nearest they can get to it is reading about it in the newspapers.

THE MENACE OF UNEMPLOYMENT

It all comes to this: Ford gets all extra profit; men get whatever they can. The nearest they can get to prosperity is reading about it in the newspapers.

110 DRIVE MOVES NORTH IN DAKOTA

HANLEY FALLS, Min., Aug. 3.—The I. W. W. in Minnesota is gathering increasing momentum. Agriculturists of the W. M. W. have marched towards Cedar Rapids, Iowa, with their plows and hoes. The streets are well cleaned and orderly. The tables are well supplied with the best of eats, such as ham and eggs, bacon, cake, lemonade, ice cream—in fact the choicest and best of eats. No booze fighters or can heat are tolerated. A rapid movement is increasing the momentum. Agriculture grows stronger and stronger.
An Analysis of Graft

The History, Practice and Psychology of the Most Characteristic Institution of Civilization Is Treated From a Practical Point of View.

By HERBERT LAMBERT

This monograph on "Graft" will run in a series of installments in the Industrial Worker. The author is one of the most earnest and energetic in the effort to bring to the world's attention a work of current interest and power has appeared. The initiative of the Committee on the Study of Graft was also an economic necessity. We have therefore begun the study of this form of vice in order to make known the facts of the situation. In this article, the attempt is made to bring together the various aspects of the question in order to arrive at the root and herein view. We trust our readers will keep the facts coming in front of them and do not allow themselves to be hoodwinked by the usual "slogan" theory. The facts are all that count, and the facts are the only way to solve the problem.

The most worth while question arising here is not the denial of graft, but rather what we can do about it. The fact is that graft is a very common evil, and we can only face the facts of the case and try to improve it. The only way to do this is to educate the people on the subject.

We find no indication of the little that is done in the case of appetite but rather a great deal more done in the case of appetite. As a rule, the price of a child's meal in large cities is a dollar and a half. The average price of a meal to a child in a large city is $1.50.

An identification bureau prevails throughout the country, but is not a perfect one, as a rule. The identification bureau is not perfect, but it is better than nothing. It is a step in the right direction, and we should all do our best to improve it.

In conclusion, we wish to say that the question of graft is an economic one, and we must face the facts and do our best to improve the situation.

CONDITIONS ON RY. EXTENSION WILL BE HI-BALL

PORT ANGELUS, Wash. — The Edith B. Brown, with about 400 passengers, started from Port Angeles for Vancouver, B. C., at 7:30 a.m. Monday. There was a great deal of interest in the trip, as it is the first for the Edith B. Brown. The ship left Port Angeles at 7:30 a.m. and arrived at Vancouver at 9:30 a.m.

VANCOUVER, B. C., Aug. 5.—The Dominion government has increased the railway rate of 50 cents per ton from Port Angeles to the terminus of the road to 75 cents per ton. The new rate will be in effect from Aug. 10.

The increase in the rate is due to the fact that the railway company has been unable to meet the demands of the public for service.

The increase is expected to bring about an increase in the cost of transportation, but it is not expected to have an effect on the cost of living.

The railway company has been forced to raise the rate in order to keep the service going. The company has been losing money on the route and now it is necessary to raise the rate in order to make ends meet.
