ABOLITION OF THE WAGE SYSTEM

Executive Committee of the Industrial Workers of the World

February 10, 1940

EDITORIAL

ONE BIG UNION OF ALL THE WORKERS

PULLMAN CO. MAKES BETTER BOXES

BUFFALO. — The Pullman-Brosius Company, largest packing company of its kind in the United States, is now getting the biggest response ever in its long history to the plan of making better boxes.

The lighter weight, it is explained, will enable trains to haul more cars. This lighter weight, it is explained, will enable trains to haul more cars. MAIL TO SPANOKE

To the following fellow workers.

The Executive Committee thanks you for the letter you addressed to the Spanohe Committee.

The period of suspension for the Spanohe Committee has begun. The suspension is due in the judgment of the Committee.

After all, there is little or no unemployment in most industries. It is imperative that we take the most positive and constructive method of getting the best results.

NOT A PROBLEM

It seems just about everyone agrees that unemployment is not a problem. It's true that some do, but many don't. We should be concerned that the workers' rights are protected.

FARM WORKDAY

The Department of Agriculture reports three million farmers in the United States have found that the new system of farm workday is working well. The reports indicate that the new system is much more effective than the old one.

SCHOOLS

The American public school system is the most efficient in the world. It is because of the efficiency of this system that we have a great nation.

IMPORTANT ENOUGH TO NOTE

JOHN P. FICKE

In a recent speech, John P. Ficke, a noted industrialist, addressed the topic of the importance of the worker. He stated that the worker is the backbone of industry and that we must do everything in our power to protect the worker.

NO SHORTCUTS

Let's try to be honest in this business of staving off the depression. The detours that are taken are not shortcuts, and while the industrial system carries on with substantial profits, it still leaves the worker with the problem of how to get through.

PRICES

The increase in the cost of living has been in the process of being passed on to the working class. The increase in the cost of living is not the result of any economic evil. That is political philosophy, yesterday, today, and forever.

Industrial Mobilization Plan: Twenty Year Conspiracy Against Workers

by Labor Anti-War Council

WASHINGTON, D.C., Feb. 17th — The mobilization for President Wilson during the war was a conspiracy to rob the American people of their rights. It was an attempt to create a war dictatorship. The justification for the war was a fraud. The war was fought to further the interests of the monopolists and/ or the rich. The workers rose up against the war, and that was the reason the war ended. The workers killed and wounded thousands of the rich. The workers got a victory, but the rich made certain that the workers did not get the gains they had won.

Oil Company Geases Palm
It's Old American Custom

But City Officials Now Fear They 'Tare Their Pants' When They Failed

Oil companies have long been accused of exploiting the public, but now city officials are worried that the companies' pants are getting too tight.

The New York Times reports that the city officials are concerned about the companies' pants getting so tight that they may be unable to pay for repairs.

The officials are worried that the companies' pants are getting so tight that they may be unable to pay for repairs.

The oil companies are concerned about the cost of the repairs and are trying to negotiate lower rates for their services.

Associated Farmers Nursed By Industrial Association

Investigations Show How Employers Of California Generously Support Thal Commando Labor

SAN FRANCISCO—(AP)—At least four hundred thousand dollars in free meat, milk and other food go to the families of the unemployed in this state each week, according to a survey made by the California Law Enforcement Association. The association, which has headquarters in San Francisco, reported that nearly all of the unemployed in the state are being fed by the employers, and that the cost of the food is being borne by the employers.

The survey was made by the association as a part of its program of investigating the conditions under which the unemployed are being fed by the employers. The association said that it had found that the cost of the food was being borne by the employers in the state, and that the food was being distributed to the families of the unemployed in the state.

"We're the people that live. Can't nobody wipe us out," says Mr Joad as the Joad family

"The people that live. Can't nobody wipe us out," says Mr Joad as the Joad family trudges its weary way onward in search of food and a home at the close of what critics call the greatest film ever made in Hollywood.

CLEVELAND BOSS COLLECTS DUES FOR AFL MEN WANT IWW

RENO HUGHES DIES AS RESULT OF ACCIDENT

BALTIMORE—> (AP)—Reno Hughes, thirty-one, of Seattle, Wash., died here of injuries received when he fell into the hold of the freighter Hampton Roads. Hughes was the third assistant engineer of the ship, which was bound for the Suez Canal, and was injured when the ship was struck by the White Mountains.

Hughes was found at the bottom of the hold by a carpenter who notified the crew. He was sent to the Marine Hospital, where he died.

Of the Men and the World

"My Week"

CLEVELAND—Ohio—West Coast and East Coast employers are accused of "unjust discrimination in pay" by the American Federation of Labor.

The AFL has been investigating the pay schedules of the West Coast and East Coast employers, and has found that the pay schedules are discriminatory.

"It is only after we had distributed the pay schedules, and we were able to say, 'Well, the Western employer is giving the same pay as the Eastern employer,'" said J. A. G. Woods, general counsel of the AFL.

"We have found that the pay schedules are discriminatory, and that the pay schedules are being used to discriminate against the men in the West.""
