440 Asks Shop In Shop Election

Emil H"offermann, 1150 Market, Columbus, Ohio—The shop executive was accosted by some alavdbay men yesterday in the yard of a wholesale meat packer. They were looking for some of the meat packers, who had been seeking workmen in the United States, to get them into a meeting of the AFL union.

Farwell, Ohio—The local IWW, which is composed of about one hundred men, is busy today in organizing a new branch of the AFL. The men are reported to be very active in the labor movement.
ABOLITION OF THE WAGE SYSTEM

ABOLITION OF THE WAGE SYSTEM

MACHINES

Displacement of men by machines in industry is the first step in the process leading to the outcome of the IU 510 referendum and acting GO(1)

TROJAN HORSE

The real New Deal has set up to help while aiming to benefit employers and workers alike. It is to be noted, if not seen, that the New Deal is a show, and the dangers to labor movement.

Obviously, the program is to bring about the centralization of wealth control. It is to do so in such a way as to create an illusion of prosperity for the masses and an illusion of power for the employing class. In fact, it will fulfill the system.

The New Deal will perpetuate and in some ways strengthen, the old order. Moreover, capitalism requires efficient production and productivity of production through strikes is a threat to all capitalists, especially when these are the times when profit is flowing easily into their coffers. Individually, capitalists prefer that the nation's capital be used to its fullest extent in order for labor forces as high as those in their own interests are high in the danger of depression, and at the same time, the mass of the people will be impoverished and starved. Therefore, it is necessary that the New Deal be utilized and the genuine democratic program be established and the New Deal be a tool to fulfill the positions of wealth control.

It is important to recognize that the New Deal is an industrial movement and a genuine democratic movement that will bring about the centralization of wealth control. The New Deal will be a show to the masses and the elite class. If the New Deal is not utilized, the nation's capital will not be used to its fullest extent and the New Deal will be a show to the masses and the elite class.

TAKE IN THE ANTI-CAPITALISTS

Between these two classes of people, the New Deal will have to be judged. Any program that is to be a show to the masses and the elite will be a show to the masses and the elite class. In the New Deal, the masses and the elite class will be the beneficiaries.

The problem is that the New Deal is a show to the masses and the elite class. If the New Deal is not utilized, the nation's capital will not be used to its fullest extent and the New Deal will be a show to the masses and the elite class. If the New Deal is not utilized, the nation's capital will not be used to its fullest extent and the New Deal will be a show to the masses and the elite class.

CHRISTIANITY AND SOCIALISM

It is necessary that the New Deal be utilized and the genuine democratic program be established and the New Deal be a show to the masses and the elite class. The New Deal will be a show to the masses and the elite class. If the New Deal is not utilized, the nation's capital will not be used to its fullest extent and the New Deal will be a show to the masses and the elite class.
Efforts of AFL Fizzle
On Minnesota Iron Range
CIO Holds To Farmer-Laborites Here, Following Strike
23,500 Miners Are Expected to Turn to IWW

The Industrial Workers of the World, the American Federation of Labor's sister organization on the iron range are not about to stop the strike in Minnesota a few months ago. The collapse of CIO locals and a number of important strikes that have been defeated in the last few years have not dampened the ardor of the miners. The IIWW, in the Congregational Convention at New York last week, are appealing the men to return to the mines and set up the IWW organization. A strike in the mines is inevitable if the miners are to get a living wage.

Drop Pretense of Unionism On Standard Oil Tankers

NEW YORK-New York Standard Oil Tankers, operating under the auspices of the United States government, have been accused of Negro labor practices, as the result of a report by the New York World-Telegram. The newspaper, which is a radical periodical of the American Labor Party, published an article on March 21, 1940, charging that the company's labor policies were discriminatory. The newspaper accused the company of paying lower wages to Negroes than to whites and of refusing to hire Negroes for certain jobs. The article also stated that the company had refused to negotiate with the International Brotherhood of Seamen, which is the union representing the workers on the tankers.

Cleveland-IWW Smokes Out Boss

CLEVELAND-IWW members have been successful in organizing the employees of the Cleveland Iron Works, according to a report received from the International Labor Union of America, AFL. The union has signed a contract with the company, and the employees are now working under the terms of the agreement. The contract calls for an increase in wages and a reduction in hours of work. The union has also secured the right to collective bargaining and the abolition of the strike policy. The employees have also been given the right to strike in case of a dispute. The union is represented by A. H. Mitchell, a member of the International Labor Union of America, AFL.

There's Money in Lakes Shipping for Sailors, If They Organize Right

PARIS, Nov. 23 (AP) - A two-month strike for better wages and improved working conditions by 100,000 lakes sailors has come to an end, officials of the American Federation of Labor said today. The strike, which began in August, was called by the American Federation of Labor and ended today with the signing of a new contract.

In the past, the lakes sailors have been paid less than the national average for laborers. But under the new contract, they will receive the same wages as other laborers. The contract also provides for better working conditions and shorter hours.

President Roosevelt has given his support to the strike and has urged the government to take steps to improve the conditions of the lakes sailors. The government has promised to investigate the matter and will make recommendations to improve the conditions of the sailors.

The strike was called by the American Federation of Labor and was supported by the United States Steel Corporation, which operates the lakes steams. The company has agreed to the new contract and is ready to start work.

The new contract also provides for the creation of a national lakes shipping board, which will be responsible for the regulation of the lakes shipping industry. The board will be composed of representatives of the government, labor, and management.

The new contract is a significant step forward in the effort to improve the conditions of the lakes sailors. It is a victory for the American Federation of Labor and a credit to the government for its willingness to take steps to improve the conditions of the workers.
