California's Scrambled Politics Mix Groups In Mess of Confusion

A Communist Hero Forgets Promise When He Reaches Swill Barrel; Proposed Laws Show Bankruptcy of the More Popular Precedent.

If you sit down and really try to dope out the Los Angeles "mess," you will probably find it a puzzling problem. And as many of the politicians in and out of office, at least, are aware, the "mess" is of such a nature that to predict its outcome is as hard as to say that the next week's headlines are likely to be the same as the last.

In the world of politics, the "mess" is a complicated one. Of the various groups which have been formed recently, the most important has been the Republican party. The Democrats, however, have not been entirely without political success. The "mess" is, indeed, a confusing one, but it is one that is likely to be of interest to anyone who is interested in politics.

The Republican party has been successful in its attempts to gain control of the state legislature. The Democrats, on the other hand, have been unsuccessful. The "mess" is, indeed, a confusing one, but it is one that is likely to be of interest to anyone who is interested in politics.

But the "mess" is not limited to these two groups. There are many other groups which have been formed recently, each with its own interests and ambitions. The "mess" is, indeed, a confusing one, but it is one that is likely to be of interest to anyone who is interested in politics.

GANDY WAGES

Railroad track workers are looking forward to a good year. The idea is that the $200 wage is a good start in what is likely to prove something more than a small increase in maintenance of track payroll.

There has been some talk of raising the minimum wage for railroad workers from $1.25 an hour to $2 an hour with workers getting a 25 cent raise every month. There has been much talk of the need for a 25 cent raise because of the cost of living.

The $200 wage is not enough to support a family. It is a minimum wage, and workers are looking for a better wage. It is a minimum wage, and workers are looking for a better wage.

"Nell R. Bee" Still Virgin

SIXTY-EIGHT PAGES

"Nell R. Bee" is a well-bred, well-behaved young woman. But, alas, she is still a virgin. To prove this, we recently purchased a test kit from a reputable pharmacy.

Mud Mountain Conditions Call for Wobbly Action

Seattle (Wash.)—Having failed on the Mud Mountain Dam, a fund was cut to the Workers' Educational Committee of the Seattle Wobblies, which is in charge of the camp, to help support the Jedediah Smith work. The committee is trying to organize the miners, who work on the mine. The Wobblies have been trying to organize the miners, who work on the mine. One Canadian CIO Considers Amalgamation

POST-ANARCHISTS have been considering amalgamation with the Industrial Workers of the World in Canada. This is not surprising, for the two organizations have many common aims. The CIO has been growing in strength in recent years, and the IWW is also reports gains. They both aim at the overthrow of the capitalist system, and they both believe in the direct action of the working class. The CIO has been successful in organizing a number of unions, and the IWW has been active in the same direction. The amalgamation would be a logical step in the development of the two organizations.
