**Big Subscription Drive**

No doubt you are following the present campaign to boost the circulation of the Industrial Worker. We do you a favor of all efforts to put our的增长 on a solid, self-supporting basis so that we can take advantage of the present unusually advantageous opportunity to spread throughout the industries and as well in the vastest of the unemployed the great message of revolutionary industrial unionism and industrial consciousness for which the I. W. W. has worked throughout these years. This is how you can help:

1. If you are a subscriber, check your subscription and don't let it lapse. If your subscription is due you can pay it into the big subscribe fund. In addition from past programs, send in for a bunch of 100 or 500 cards and get busy. The way to increase present issues each will sell for the four months. If you can't pay in full or even the amount desired, please send in whatever you can. The fact is, if you pay it in full you will have a big help during these tough times. Remember the I. W. W. isn't just a newspaper. It is a living organism.

2. Don't drop out with the idea it cannot be done. In the past many members sent in $10 items to boost our campaigns. Now we have organized in New York and have sent in 500 to 300 cards, and they promise to keep the flow coming. So it was with the I. W. W. in 1909 and the slogan was up. It was directed (by our members) to the need of the situation. I. W. W. members are going out to the public and those who are going to increase the membership at a branch meeting. It is important that all present a good show of force. If you haven't already done so, this is your chance to give the I. W. W. a real boost.

3. The membership in the I. W. W. is many times better than the working class. It has been made a strong plea to the miners of Colorado. The I. W. W. miners have been working as a unit and the membership has been increased. The membership is increasing in all branches. There is a great need for this. The I. W. W. needs the full support of every member and sympathizer. Our shoulder to the wheel and make the I. W. W. a real force.

Keep the I. W. W. going! Support it in every way you can.

**Rules for Subscription Contest**

For those who have taken advantage of the Big Subscription Drive, here are the rules for the Subscription Contest there is naturally no limit on the number of subscriptions a person may enter.

1. To enter a subscription contest, simply enter your subscription under the name of the person entered. No member of the same household can enter the same subscription.

2. A subscription contest can be started at any time. The contest will be run for a period of one year.

3. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

4. The contest will be run for a period of one year. The contest will be run from January 1, 2023, to December 31, 2023.

5. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

6. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

7. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

8. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

9. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

10. The contest will be run as a membership contest. The person paying the subscription will be entered for the contest. The contest will be run on a monthly basis. The person with the highest number of subscriptions paid in a month will be entered for the contest.

**Auto Workers Win Decisive Victory Big Concessions**

Wages-data defeated, better wages and Conditions gained for skilled and Unskilled Strike. The strike for three days against the Chattanooga Car & Wagon Works ended last week, bringing an end to the strike. The workers at the Chattanooga Car & Wagon Works, striking for the second time in as many months, won a number of important concessions.

The strike was called on the 24th of May, 1931, after the workers had been forced to accept lower wages and worse working conditions. The workers had been working for a long time at lower wages and in poorer conditions than those enjoyed by workers in similar occupations.

The strike was won after a bitter struggle, but the workers were able to get better wages and working conditions. The workers had been working for a long time at lower wages and in poorer conditions than those enjoyed by workers in similar occupations.

**German Unemployed Get Union Pay and Food Relief**

The unemployed workers in Germany have been able to get union pay and food relief since the establishment of the I. W. W. in 1909.

The I. W. W. has been able to provide union pay and food relief to unemployed workers since the establishment of the I. W. W. in 1909.

The I. W. W. has been able to provide union pay and food relief to unemployed workers since the establishment of the I. W. W. in 1909.

**Slaves in Ashtabula**

The slaves in Ashtabula are on strike. The workers at the industrial plant have been working 12 hours a day and 6 days a week. The workers are striking for better wages and working conditions.

There are a few tips held in common by all the states. One is that the chief difference is that the Technocrats are fighting by lobbying politicians and drilling into the minds of the people, whereas the Communists are fighting by street demonstrations and strikes. The best way to get at the minds of the people is through newspapers, radio, and the motion picture. These are the avenues through which the Technocrats are best able to influence the public. They have a clear, logical, and scientific basis for their proposals, and they are always ready to explain them to anyone who wants to know about them.

In summary, the Technocrats are fighting for a world of peace and prosperity, where all the people can live in harmony and contentment. The Communists, on the other hand, are fighting for a world of revolution and conflict, where the working class must struggle for their rights and liberties. The choice is clear, and the Technocrats are the ones who can bring about the future we all want.
