Was there ever a day when the Judges and the State were not at odds with the people? When the Courts are in conflict with the will of the people, the people are in conflict with the Courts.

NATIONAL CITY BANK ADVOCATES MORE WAGE CUTS

In the Face of Corporation Corruption Before the Big Industrial Workers Conference, National City Bank's Bankers Would Like a Stronger Union Movement

July 22, 1928

The Nation's largest bank, the National City Bank of New York, is in the midst of an active campaign to stimulate a strong union movement. The campaign is being conducted by the bank's top executives, who are convinced that the strongest union movement in the country can be built through the activities of the bank's own employees.

The bank's strategy is to encourage its employees to organize and to make them aware of the benefits of unionization. The bank's top executives believe that by providing a strong financial foundation, the bank can help to build a strong union movement.

California—the "Beautiful and Damned"

The Mecca of the Retired People, the Breeding Place of Morons and the Hell of the Working Class.

By J. J. S. B.

In studying the citizens of California, both native and imported, it becomes obvious that they resemble in their general characteristics those of their neighbors, and to stuff surface labels into the heads of their offspring. Also, that the state contains a large number of people who have an alleged interest in the welfare of labor and who have been well educated in the principles of socialism and extra-territoriality, and who are vaguely aware of the idea of justice, but primarily interested in the welfare of the immediate family and the gratification of individual appetites—just like everybody else.

The state board of health is a body staffed with fine citizens who are true to their profession and who care deeply for the health of the state. As the result of a series of conferences, this board has come to the conclusion that the people of California are in a bad way, and have for some time been taking steps to control the situation. As a result, the legislature has been called into session to consider the matter, and it is expected that a new law will be enacted to control the situation. The new law will be designed to protect the people from the evil of the state board of health.

The people of California are in a bad way, and it is feared that unless we take steps to control the situation, we shall be in a worse way.
