WAGE CUTS MAY FORCE SHINGLE WEavers STRIKE

Conditions On Grays Harbor Shingle Works To Force Contract Action In He
ger. Taken By Shingle Weavers To Rule Out Strike On Introduction Of Stack Shields.

By C. E. PAYNE.

ABERNOTH, Wash. June 2

Conditions on the Harbor have developed to a stage where the necessity for the shingle weavers at any moment. The scale of the depression and the unemployment situation are being used by the manufacturers to introduce such conditions and to break up the every welfare of which the wages of these men have dropped from a week's pay on the job and paid heed

it is impossible to make a correct estimate of the five-day week plan today. Labor is affected. The working week will end on Friday, which is estimated 2,500 to 3,000 men would be

The Machine Maker's Prayer

By COVAMI

On the Creator, have mercy on my Creator! "He or she at an edge!"

Remember, not one of us are perfect, even the best of them are. "By Thy Grace only."

I have no substitute for the natural. All men are made in the image and likeness of God. "No more endeavors than those which are in Thy power to perform."

Those serve, these muscles and this breath, have mercy on my Creator, O my Creator!

The ANSWER:

Up from your knees. Your legs, they are made for you. "The Man—Whithin You,"

Organize! Pray not to Me! "The God of all Nations."

You have not yet! The System—"The God of all Nations."

Be not so pitiful; I have become your Brother. "The Rebel seed, the Ansar.

Only here I hear and heed!"

Regimenting the Youthful Mind

Sires Diverted Into Channels of Propaganda For the Purpose Of Glorifying Over the Battles of War.

By DANIEL HOSLEY.

Without revolutionizing the schools, it may be an evolutionary practice.

This expression by Lenin makes a worker ponder and ask if we are not in the process of revolutionizing our schools. During the recent war, the impression was left that the boys were being turned into soldiers and the girls into nurses. Yet, there was not a real revolutionizing of the schools. While the boys were being turned into soldiers, there was no thought given to turning the girls into nurses. It is only now that the schools are being reorganized for the purpose of preparing the youth for the coming war. The boys are being taught to shoot and the girls are being taught to cook.

We may find that in the past the schools have been the real battlegrounds in which the battles of war have been fought. The boys have been trained to shoot and the girls have been trained to cook. The schools have been the nurseries of the future soldiers and nurses. The boys have been taught to aim and the girls have been taught to make neat, clean meals. The schools have been the real battlegrounds in which the battles of war have been fought.
