INDUSTRIAL WORKER

LOOKING THE WORLD OVER

By JOHN LIND

British Labour

The British Labour movement is now in a state of exceptional activity. A number of important trade union conferences are being held, and the general mood is one of optimism and determination. The Labour party, which has split into four factions on the question of the nationalization of the coal industry, is now united and will hold its conference in October. The Labour leader, Mr. Churchill, has declared that the party will stand firm on this issue and will not yield to pressure from any quarter. The conference is expected to adopt a resolution strongly supporting the nationalization of the coal industry.

Japan

Japan is making rapid progress in its industrial development. The government is determined to make the country self-sufficient in war materials and is taking all necessary steps to achieve this goal. The production of war materials has increased significantly, and the country is now able to meet its own requirements. Japan is also expanding its naval and air forces, and the government is planning to increase the size of these forces in the near future.
