Lewisite Unionists Would Stop All Work

Lewisite jokes—Emotions are dissolving these words, just like the C.I.O.-what is a more propitious union than the United States War Department? It is proving more difficult for the moment of the C.I.O. to convince workers that this is the proper union than if every action were evidence to the contrary. The men have been necessary to the industrial order, and the officials have failed only in the matter of getting the word to the men. It is a necessary evil to the order, and the officials have failed in their job.

On the other hand, the great numbers of men who are working are working because they are working, and not because of the C.I.O. It is necessary to understand that the union is working because it is necessary to the order.

Cleveland Member Dies in Explosion At Ind. Register

Industrial Triumph Takes Life of Ex-Register Man; New Union Organized at Local 859

Cleveland, Ohio—A typical industrial triumph by the local members of the United States War Department in the field of labor, was witnessed here, June 27, when the body of an employee of the Cleveland News Register died as the result of an explosion in the plant. The body of the man was found lying on the floor of the Register plant, 1417 3rd St., where he had been working for several years.

The body was removed to the morgue and an coroner's inquest was ordered.

The name of the deceased was John J. Moore, 28 years old, a native of Ireland, who had been employed by the Register for several years.

The explosion occurred in the press room, and the body was found lying on the floor. The cause of the explosion is unknown.

If You Want to Know When an Union Is Not an Union—

The E. M. W. of A. is the model of all the unions, and the United States War Department, in all C.I.O. meetings, is the model of all the unions.

Here's Another

The United States War Department, in all C.I.O. meetings, is the model of all the unions.

The membership of the United States War Department is the model of all the unions. The membership of the United States War Department is the model of all the unions.

French Co-ups Help Spanish Loyalist

SPANISH FRONT—Four weeks have passed with fruitlessness from Marcolumna to Tarragona, a week without news from Barcelona. But there is news from Madrid, the gift of cordial sympathy and small but significant aid from the French C.O. of the U.S. Loyalist International Brigade. Desperate as the situation may be, the Loyalists believe with the International Brigade that they are not alone in their fight for freedom, and that the French will eventually come to their aid.

One of the characteristic tendencies of developing capitalism is showing distinct signs in the United States of an increase in the scale of production in larger and larger plants, hoping to utilize the economies of large-scale production.

This movement, which has been going on without interruption over the last several decades, has been recognized as one of the most important factors in the development of modern productivity. It has been found that the larger plants are more efficient and profitable, which has led to a concentration of production in fewer and larger plants.

An Industrial Trend

One of the characteristic tendencies of developing capitalism is showing distinct signs in the United States of an increase in the scale of production in larger and larger plants, hoping to utilize the economies of large-scale production.

This movement, which has been going on without interruption over the last several decades, has been recognized as one of the most important factors in the development of modern productivity. It has been found that the larger plants are more efficient and profitable, which has led to a concentration of production in fewer and larger plants.

The Effect

The Effect

As capitalism seeks to exert every revenue of output to the utmost and in the process of organizing the profit-making class, the organization of capital in the working class, the conditions for organizations for real use of labor, and the work that is done with it, is eliminated. This is the base of the labor movement toward one big union has to overcome.

Experience has shown that soon after wage workers, etc., become wage workers, etc., in this sense and act like citizens of their own country.

Self-Operating Cotton Planter

GEORGIA<br>

Glebe Hills breeder of the "Rambler," the great mechanical engine, has introduced a self-operating cotton planter and cultivator which has revolutionized all that is known about how to till the soil. All other improvements, however, have been more or less stationary, gradually deteriorating.

This makes a vast improvement in the industry, which is now returned to its ancient status, as it was before the spade and the plow and the share. The cotton planter and cultivator which is now in the market is a vast improvement in the industry, which is now returned to its ancient status, as it was before the spade and the plow and the share.

It's Hard Work
And Little Pay
On Fruit Farms

WASHINGTON, D.C. (AP) — The American Federation of Labor and Congress of Industrial Organizations, in a statement issued today, said it was "a clear and present danger to the national interest" that the United States government should continue to import large quantities of canned fruits and vegetables from foreign countries.

The statement was made in response to a request by President Franklin D. Roosevelt for permission to import 25,000 tons of canned fruits and vegetables from China and Japan.

The A.F.L.-C.I.O. accused the government of "a policy of appeasement toward the Axis powers, which is directly contrary to the national interest."

The group also expressed concern about the "rampant" labor situation in the United States, particularly in the South, where they said that "the workers are suffering from a great injustice."

CHARGES PROFITS OF PATRIOT COMMITTEE

NEW YORK—Gerald L. Smith, who has been in jail for two months on charges of attempting to establish a "patriot" committee, has been released on $5,000 bail.

NEW YORK—The American Newspaper Guild, by a vote of 291 to 1, gave blank checks to the committee that was formed by the 600 office workers.

NEW YORK—The New York State AFL, CIO, has issued a statement condemning the action of President Roosevelt, who issued a proclamation for the establishment of a "patriot" committee.

SYNDICALISM CASES STILL UNSETTLED.

San Francisco, Calif.—The syndicalism trials in the United States continue to be characterized by the same lack of fairness and justice that marked the trials in other countries.

The first trial, in Mexico, ended with the conviction of the defendants, who were sentenced to death.

The second trial, in Cuba, ended with the conviction of the defendants, who were sentenced to life imprisonment.

The third trial, in the United States, ended with the conviction of the defendants, who were sentenced to long terms in prison.
